PROFILE

React Native Developer with 2 years of hands-on experience in building cross-platform mobile applications using React Native (Expo & CLI) and modern JavaScript. Skilled in creating responsive UI, integrating REST APIs, and managing application state using Redux Toolkit and Context API. Passionate about writing clean, maintainable code and continuously learning new technologies.

SKILLS

Mobile Development

- React Native (Expo & CLI)
- JavaScript (ES6+)
- Component-Based Architecture
- Responsive UI & Mobile Optimization
- Push Notifications
- Image Picker
- Lottie Animations
- Deep Linking

State Management

- Redux Toolkit
- Context API

APIs & Services

- REST API Integration
- Axios
- Firebase (Authentication, Firestore, Storage, Cloud Messaging)

Tools & Platforms

- Git
- GitHub
- Postman
- VS Code
- Expo CLI
- Android Studio

Web Development

- React.js
- HTML5
- CSS3
- Tailwind CSS
- Vercel
- Netlify
- Firebase Hosting

ACHIEVEMENTS

- Successfully integrated Push Notifications, Image Picker, and Lottie Animations in production-ready applications.
- Improved application performance by optimizing component rendering and state management.
- Developed reusable UI components to improve code maintainability and development speed.

EXPERIENCE

React Native Developer

CodeDev | November 2024 – July 2026

- Developed cross-platform mobile applications using React Native with Expo and deployed production builds using EAS Build.
- Built reusable UI components and managed global state using Redux Toolkit, Zustand, and Context API.
- Integrated REST APIs, handled deep linking, and implemented advanced navigation flows.
- Implemented features including Push Notifications, Image Picker, and Lottie Animations.
- Optimized application performance by reducing unnecessary re-renders and improving loading speed.
- Collaborated with designers and backend developers to build scalable and user-friendly applications.

React.js Developer (internship)

Metablock Technologies | 2024

- Developed responsive and dynamic web interfaces using React.js.
- Built reusable UI components and integrated REST APIs.
- Worked on bug fixes, performance optimization, and UI improvements.

PROJECTS

Bell Belly – Digital Reminder App with Tools (React Native + Expo)

- Developed a digital reminder application for managing daily tasks and important events.
- Features include Add/Edit reminders, categories, recurring reminders, and utility tools.
- Integrated local notifications, deep linking, and local data persistence.
- Tech: React Native, Expo, Context API, AsyncStorage, Expo Notifications.

Fusion Link – Business Network International App (React Native + Expo)

- Developed a networking application for business professionals to connect and collaborate.
- Features include member directory, events, announcements, and business leads.
- Implemented secure authentication and push notifications.
- Tech: React Native, Expo, Redux Toolkit, Firebase.

Ejuuz – E-commerce App (React Native + Redux Toolkit)

- Built an e-commerce application with product listing, search, filters, cart, wishlist, and checkout.
- Integrated multiple REST APIs and order tracking.
- Managed global state using Redux Toolkit.
- Tech: React Native, Redux Toolkit, Axios, Firebase.

CRM App – Customer Relationship Management (Expo)

- Customer Relationship Management application for managing leads, clients, and follow-ups.
- Features: Dashboard, lead management, reminders, and reports.
- Role-based access and secure API integration.

EDUCATION

Bachelor of Computer Applications (BCA)

Vivekananda Global University, Jaipur

2nd Year (Pursuing)
